PROFILE

- Full-stack developer skilled in React.js, Ballerina, Spring Boot, and MySQL/MongoDB, with experience delivering enterprise-grade platforms for resource management, e-commerce, and legal tech.
- Proven ability to design and build end-to-end systems: from responsive front-ends and real-time dashboards to secure APIs, AI chatbots, and scalable back-end architectures.
- Complementary expertise in hardware and embedded systems (ESP32, Raspberry Pi, IoT), bringing a unique edge in bridging software with physical solutions.
